Calculators can be purchased from Abacus Online, Officeworks, Amazon, Texas Instruments and other online retailers.

**Queensland Academy for Health Sciences does not endorse or recommend any particular retailer.*

Calculators are required for the beginning of Term 2 for Year 10.

♦ All students must study a language. All Language workbooks have been factored into the SRS (Student Resource Scheme) for Years 10, 11 & 12. Please note once a workbook has been written in it can no longer be exchanged; should a student decide to switch languages and their workbook has been written in, a new workbook for the new language will have to be purchased. Replacement workbooks can be purchased from the Uniform Shop only.
